

ECO525MPWATERBUTT

Product description: 525 mini pillar water butt with multiple outlets and removable lid, available in a variety of colours

Product Information

Height	Width	Depth	Weight	Outlets	Lid
1110mm	820mm	630mm	25kg	1 x 3/4" & 2 x 1" BSP	Removable

Sizes approximate, owing to shrinkage

PRODUCT NOTES:

- Tank must be sited on a level, fully supportive base allowing a 30mm gap all round
- Use hole-cutter to fit rainwater diverter or overflow pipe where required, 50mm from the edges
- Connect a tap to the raised connection to fill a watering can
- Use brass isolation valve to connect irrigation hose to either of the lower outlets and water the garden at the turn of a lever
- Fully removable lid for ease of access. Alternatively, a screw-down lid can be fitted, if required.
- Outlets not drilled, unless requested.

PRODUCT DETAILS:

- Available in a variety of colours to suit location
- Manufactured from virgin polymer
- Approximate wall thickness: 6-7mm
- Fully removable lid as standard
- 3/4" raised brass threaded outlet
- 2 x 1" brass threaded outlets – one on each side

OPTIONAL EXTRAS:

- Brass tap and/or Brass isolation valve with hose connector
- Tank connectors
- Downpipe diverter or filter diverter
- Basket filter
- Fresha tabs
- 9", 14" or 16" screw-down lid options

BENEFITS:

- Frost proof in winter; plastic will not crack
- High capacity water storage for keen gardeners
- Robust, heavy duty product; industrial strength
- Modern, minimalist pillar design
- Small footprint maximises capacity when space is limited
- Tanks can be connected together using bottom outlets
- Opaque plastic reduces algae growth in sunlight
- Rotationally moulded for strength & durability
- 2 year warranty against manufacturing defects
