

ECOSURE IBC BUND

WITHOUT DISPENSING FACILITY OR GRID

Ref: ECOIBC

Forkliftable

Strong & Durable

2 YEAR GUARANTEE

To help you comply with the current oil and chemical storage regulations, these IBC bunds are designed for the long term safe bunding of IBCs. Completely manufactured from acid and alkali resistant polyethylene, no steel parts have been built in to guarantee complete corrosion protection. They are suitable for all oils and most non-combustible chemicals. Each storage place is limited to a maximum of 1600kg UDL and can be used for liquids with a maximum specific gravity of 1.4 depending on the weight of each IBC.

Why buy Ecosure IBC bunds?

- Forkliftable for easier handling
- Tough construction to resist knocks
- Corrosion protection
- Retains long term structural integrity
- 2 year guarantee

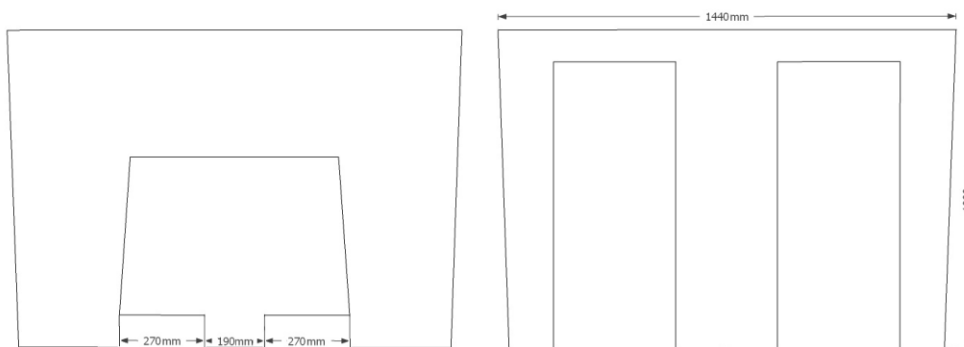

All IBC bunds must be stored on a flat level base

Benefits

- Protects the workplace, environment and personnel
- Designed for most sizes of IBC
- Maintenance free

Compliance

- Compliant with the 110% bund regulations
- No taps or drainage points to compromise the bund
